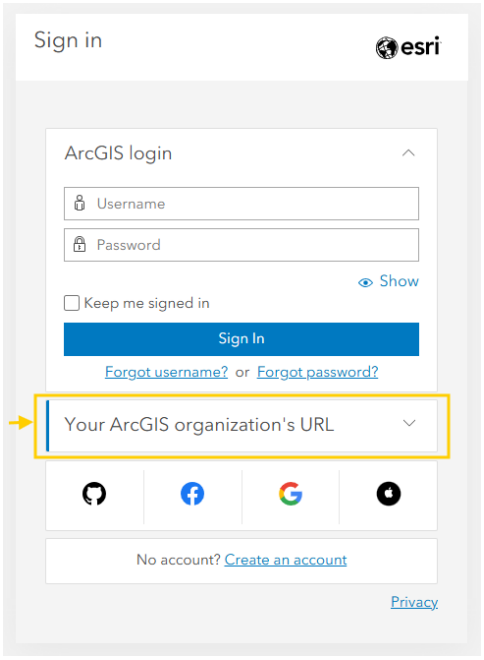
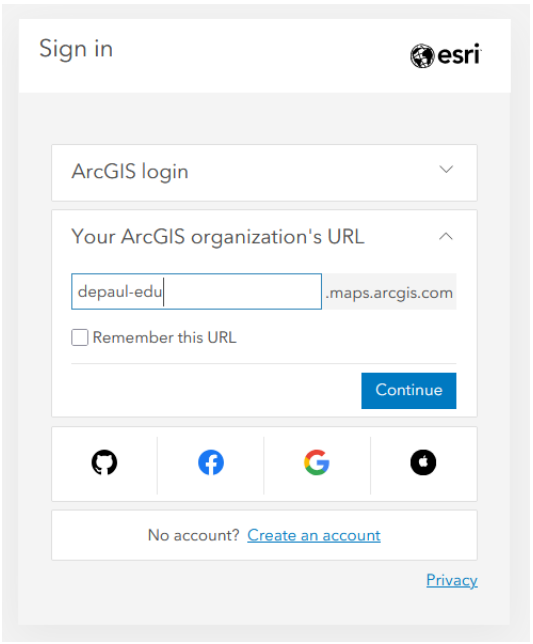
DOWNLOADING ARCGIS PRO

Instructions for downloading ArcGIS Pro

- If you want to first make sure that your computer can run the software, you can follow the instructions from Esri here: ArcGIS Pro 3.7 system requirements | ArcGIS Pro documentation
- Go to `https://www.arcgis.com`
- Click `Sign In` (center or top right corner). When prompted, select `Your ArcGIS organization's URL`.

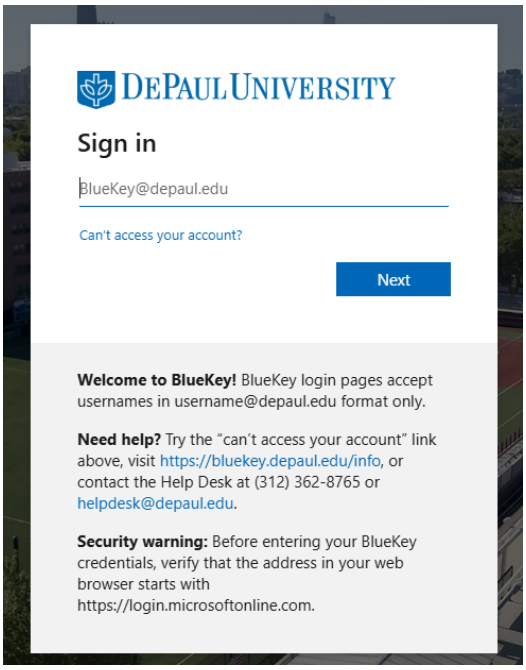
- In the organization URL field, enter `depaul-edu`, then click `Continue`.

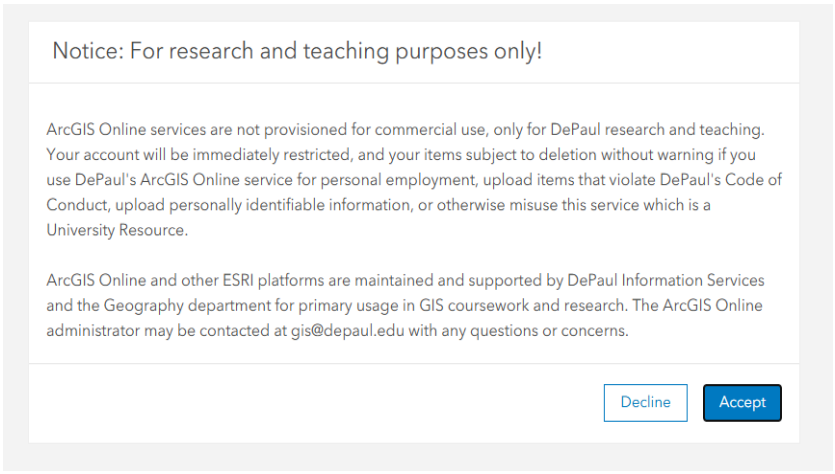




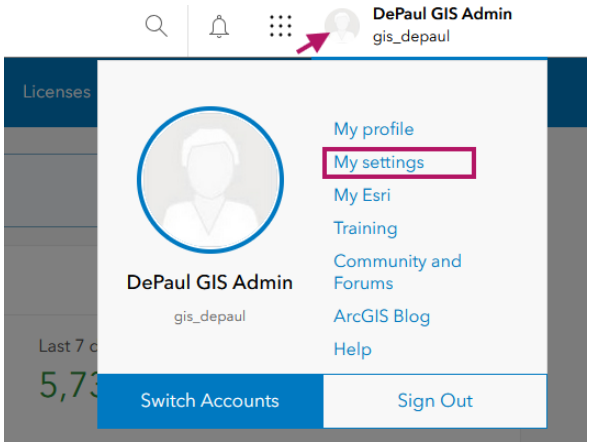
- You will be redirected to the DePaul login page. Sign in using your BlueKey credentials.
    - Complete any multi factor authentication (MFA) if prompted.

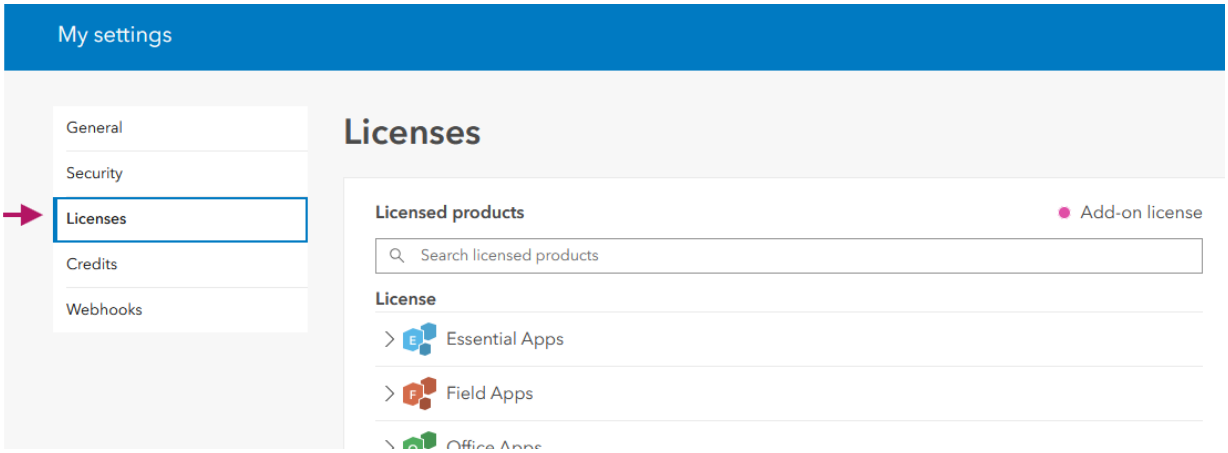
- Read the notice and click **Accept**.



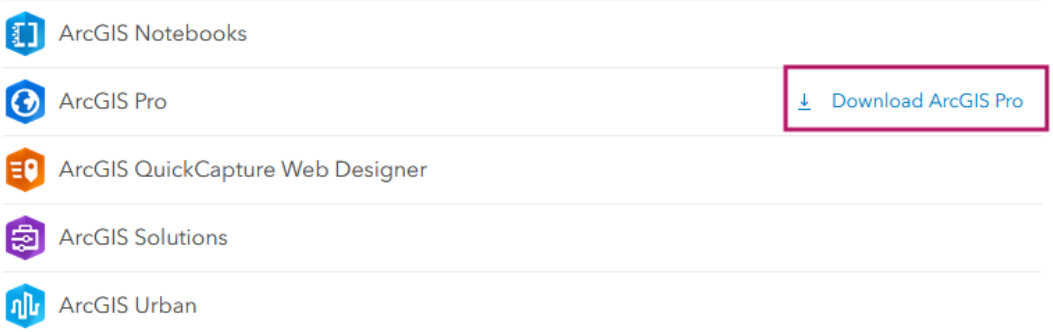


- After you've logged in, click on the account icon to the top right of the page.
- Then click on `My Settings.`
- Click on `Licenses` under settings.





- Scroll down the list until you see ArcGIS Pro listed and click on `Download ArcGIS Pro`.



- You can then double click the downloaded file, extract it and follow the instructions of the installer.
