

How to enable high-quality audio in Zoom

How to enable high-quality audio in Zoom

- Launch and log into Zoom

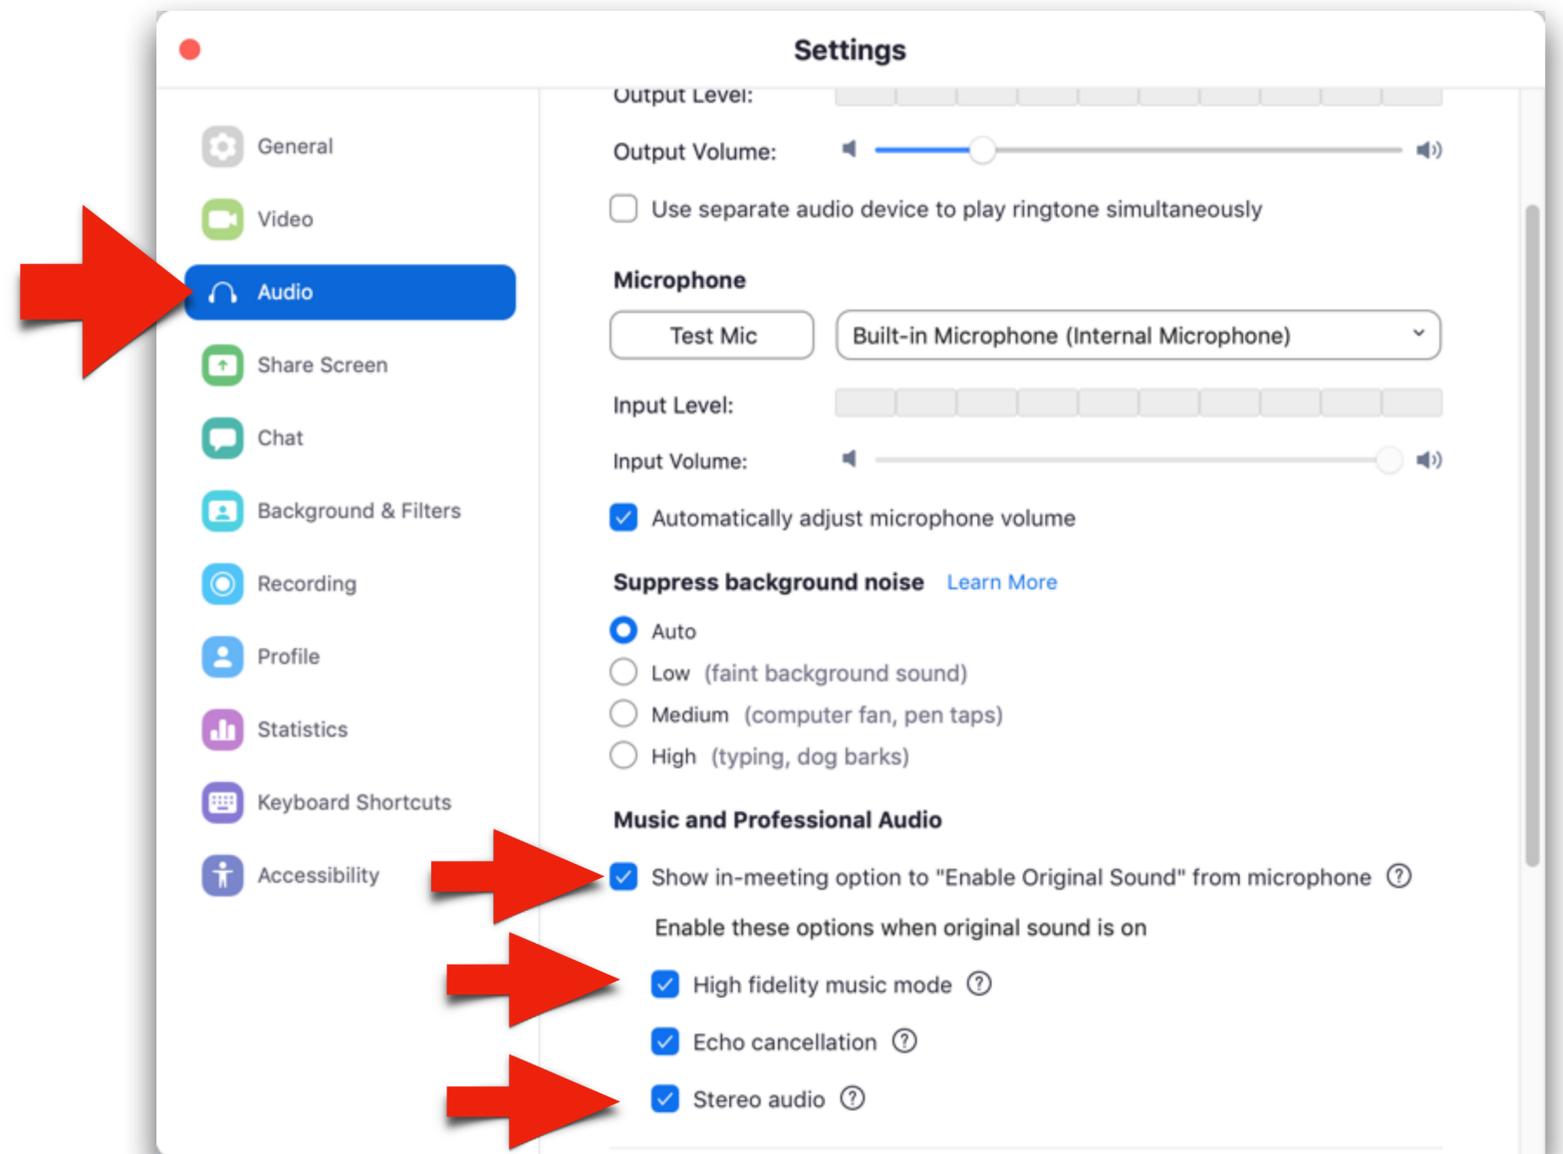

- Click on the the zoom.us menu
- Select “Preferences...”

- Select “Audio”
- Check “Show in-meeting option to Enable Original Sound”
- Check “High fidelity music mode”
- Check “Use stereo audio”

Be aware that using "high fidelity music mode" and "Use stereo audio" will increase bandwidth demands on your internet

When you are in a meeting, you will enable the “Original Sound” mode by clicking on “Turn on Original Sound”

You will now stream audio free from Zoom audio processing and compression.
